Letter of Solidarity

18/04/2018

Dear Friends, Brothers and Sisters,

I wish to express our deepest solidarity with your members who concluded to go on strike against the proposed measures.

You all face very severe limitations – including the loss of lifelong employment security and early retirement. Hungarian employees – and railway workers in particular – have also seen very similar arrogant government actions in the past couple of years.

We support you as we are sure you will be able show that unions can beat liberal labour reforms and you will demonstrate what it really means when workers join forces and stay united.

I wish you success and perseverance in reaching your goals!

In solidarity,

Zoltán Halasi
president
VDSzSz Solidarity
